

# Inflation Forecasting and Monetary Policy

February 3 - 14, 2014

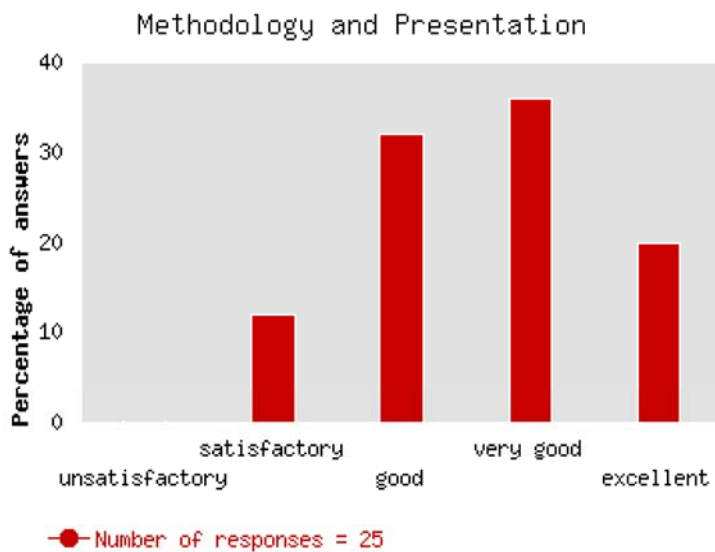

## Lecture of Daniel Kaufmann

Exchange rate and price dynamics around the zero lower bound

### The academic content was

### The methodology and presentation were

### Which topics were the most interesting for you and will be relevant to your daily work?

- No one until this moment

- -
- Modelling constrained by the zero lower bound is a new topic for me. It was a good lecture.
- Very topical and relevant for me. I think it complemented Sylvias topic well. Again I will apply Sylvias models at work
- how difference of the forecast performance between the model without vs with zero lower bound interest rate
- The effect of ZLB in forecasting accuracy.
- all
- Exchange rate mechanism when you have constraints on the interest rate
- all, but no time to exercise
- Exchange rate lecture was very interested and helpful to my work

**Which subjects should be eliminated or reduced?**

- It is Ok
- -
- The content was just right.
